- Mirrorlink
- Miracast
- IP Licensing
- Product lifecycle support

JAS-Tunes Multimedia Framework

JAS-Tunes

(Media & Connectivity Solutions)

Key Features

Media Solutions

- Audio decoders and encoders
- Video decoders and encoders
- Image decoders and encoders
- Sample Rate converters
- Audio Routing
- Rendering & Streaming
- Multimedia engine integration
- Media player interface
- File systems
- USB, HDMI & Bluetooth
- Parsers & MetaData
- Device Manager & Database management

Platform Development

- Driver development
- Multidisplay framework
- Connectivity protocols
- Device discovery & Management

SoC (currently supported)

- BlackFin
- Freescale
- Renesas
- NXP

OS (currently supported)

- **Android**
- Win CE
- Win Auto
- Linux
- VDK

Connectivity Solutions

- Android Auto
- CarPlay
- CarLife
- Miracast
- Mfi Certification
- Audio routing
- Network Stacks
- Network Media Streaming Applications
