JAS-RSE

JAS-RSE

(Rear Seat Entertainment)

Key Features

Application development

- Media devices
- USB
- SD Card
- Miracast
- Sling Player
- MHL
- DLNA
- BOYD
- Bluetooth
- HDMI
- Wi-Fi

Platform Development

- Driver development
- Multidisplay framework
- Connectivity protocols

SoC (currently supported)

- BlackFin
- Freescale
- Renesas
- NXP

OS (currently supported)

- **Android**
- Win CE
- Win Auto
- Linux
- VDK

Middleware development

- Media player interface
- HMI Framework
- OTA Firmware update
- Miracast
- OTT Streaming services
- Distributed playback
- Multi Language Support
- Mutlicast
- Multimedia engine integration
- Streaming protocol stacks

Services

- Application Layer Software Development
- HMI Design & Framework Development
- OTT Streaming Services Integration
- System Integration & Testing
- Mobile APPS Development (Android, iOS)
- Product maintenance services
